- Callers need to remember only one number (for you) and will never have to worry if it is the right number
- Callers can leave you a voice message WITHOUT ringing any phone or interrupting you with a live call
- Manage only one voicemail system
- Unify ALL Voicemails, ALL Emails and ALL Faxes into ONE inbox!

- No need to announce or re-print new numbers when changing jobs, desks, locations or cell providers
- Take control of and reduce your cellular minutes
- Choose to accept any call live or discreetly send to voicemail
- Be notified of your voice messages and know who they're from before listening

Imagine the Privacy

Be accessible & have a life, too!

- Callers don't know where you are or at what number... they only know your 'OnlyOne Number'
- Never again give out your home, cell or any other confidential numbers
- Fax to Email capability keeps faxes private and confidential
- Faxes are no longer sitting on the common office fax machine and you are notified when you receive a fax
